

## June 26<sup>th</sup> 2023 healthConnect Portal Release Notes

Below you will find information on recent updates and enhancements now available in the Health Information Exchange. If you would like additional information about these new features, please contact us at [support@ak-ehealth.org](mailto:support@ak-ehealth.org) or call us at 907-770-2626

### 'Hide Home Facility' Data Filter Added to Structured Documents

**Platforms Affected:** HIE Portal, Single Sign-On InContext App

**Prior to this Release:** The Structured Documents subtab did not contain a 'Hide Home Facility Data' filter.

**For this Release:** The 'Hide Home Facility Data' filter is available within the Structured Documents subtab. Home Facility Data is any data delivered to the HIE directly from the organization associated with the user's InContext or Portal account. The Structured Document subtab is located within the Clinical Data tab. When you select this feature, patient records from your practice location will no longer be displayed when you are viewing structured documents. Users can click the filter icon and select the check box next to 'Hide Home Facility Data' to add/remove this filter.

The screenshot shows the HIE InContext portal interface for a user named ANNA CADENCE, Female, born Nov 16, 1981. The 'Structured Documents' subtab is selected and highlighted with a red box. A filter icon (three horizontal lines) is also highlighted with a red box. A filter menu is open, showing various filter options: Date (From), Date (To), Source, Title, Type, and Size (KB). The 'Hide Home Facility Data' checkbox is checked and highlighted with a red box. A red arrow points from the filter icon to the checkbox.
